## The Black Hollyhock

*In cultivation since at least 1629!*

Gorgeous, deep maroon blooms that look almost black grow singly—and quickly—on tall, stiff spikes. White eyes peer out from the centres of the bell-shaped flowers. Large, rough, heart-shaped lower leaves become progressively smaller toward the top of the spire. Great against a fence or a wall, and for hiding

unsightly views. *Alcea rosea 'Nigra'*

## Flowering Fern™

*Fernlike foliage with spectacular blooms.*

Known for textured, fernlike foliage and striking, trumpet-shaped blooms, each plant features 3–5 stalks up to 18" tall. This perennial multiplies freely and forms neat clumps—a lovely border addition that's adored by hummingbirds. Not a true fern, it needs a bit of sun to thrive in the ground or in pots. *Incarvillea delavayi*

## Royal Inferno Dahlia Mixture

*Blooms are incredibly bold and distinctive.*

Each flower in this mix is perfectly round, showcasing the intensity of its colour.

Expect a range of stunning hues, including fiery red, deep purple-red and lavender-blue. These dahlias are substantial, with a 4" diameter, and create beautiful bouquets. They are held upright by strong stems throughout the growing season,

until the first frost arrives in the fall. Like most dahlias, these are unappetizing to deer, making them a reliable and low-maintenance option for any garden.

## Frozen Queen Calla Lily

Only Breck's offers this one-of-a-kind plant. We're thrilled to be the exclusive seller in the U.S. and Canada of this transcendent calla lily! Frozen Queen will enchant you even before its wine-red blooms begin opening. The unique hues and shapes of the variegated foliage are, in a word, breathtaking. Translucent, silvery white leaves irregularly outlined in green brush strokes elegantly twist and curve as they climb skyward. The upright, trumpet-shaped flowers, which are 4" in length and 2-3" in diameter, arrive in midsummer displaying the colour of a good Bordeaux to add

gorgeous contrast. This versatile beauty is equally at home outside in the garden and indoors as a houseplant. Outdoors, it deserves a spot in the front row where it can be admired, such as in a border or patio pot. In areas with hot, humid summers, we recommend planting this calla lily where it will get at least some shade and avoid being in direct sunlight during the hottest hours of the day.

Don't pass this one by! *Zantedeschia*

## Mini Mouse Hostas

*Perfect for small pots and rock gardens!*

These little hostas really punch above their weight, packing a ton of great qualities into their neat and petite shapes. Available in a wide range of stunning colours, these plants also boast a remarkable resistance to slug damage. Beautiful yet compact in pots, under shade trees or along darkened borders. Their low-growing nature also makes them spectacular as a ground cover, with each spreading a manageable 10-12".

Haarlemmermeer, The Netherlands

## PLANTS THAT PREFER 'WET FEET'

Bring life to soggy spots in your yard with perennials that thrive near the edge of a pond, or in a low-lying spot that is always damp.

### Soulmate Swamp Milkweed

*The perfect nectar source for monarch butterflies.* Create a lively butterfly garden with this lovely milkweed at its centre. Soulmate's erect, clump-forming habit gives plenty of real estate to the clusters of cherry-pink flowers that emerge in midsummer. Plant is fast growing, carefree and versatile—ideal for adding unique beauty and vivacious colour to borders,

decorative containers, water features and cutting gardens. The fragrant blooms attract other pollinators, such as bees and hummingbirds, as well. Plant perennializes like a dream. *Asclepias incarnata*

### Breck's® LIFETIME GUARANTEE

If, for any reason, you're not completely satisfied with any bulb, bareroot or starter plant upon receipt, after planting or once it grows and blooms, just contact Breck's anytime—no time limit—for as long as you garden. No need to return any item. We'll happily replace it or send you a merchandise credit.

## PLANTS THAT PREFER 'WET FEET'

### Black Joker Siberian Iris

*Dark and exotic blooms for a one-of-a-kind display.* Give Black Joker pride of place in your late-spring garden and be amazed at how well the colours stand out. A truly unique palette features deep purple falls trimmed in gold-topped, lavender standards highlighted with sunny yellow. It makes a wonderful seasonal bouquet to be enjoyed indoors, but it's just as nice outdoors in a sunny border or near a water feature or pond, where it will thrive. *Iris sibirica* 🌸🌼

## PLANTS THAT PREFER 'WET FEET'

### Peacock Butterfly Siberian Iris Mixture

*Exotic-looking blooms in a mix of unusual colours.* Though Siberian iris are easy to grow in most of North America, they have a lovely, exotic quality that makes them prized for cut-flower arrangements, border plantings and water-garden accents. This gorgeous mix features striking blooms in several hues that are highly unusual for iris. Plants are well-branched and produce buds in abundance. Robust and long lived. Varieties are not individually labeled. *Iris sibirica*

## Purrsian Blue Catmint

*Compact, mounded habit is a major step forward for catmint!*

Low-maintenance perennial plant blooms for months—and attracts bees and butterflies with its fragrant, periwinkle-blue flowers. It nearly doubles its spread in the second year. Like other catmints, it releases a cat-attracting fragrance when its stems are broken; unlike others, its tidy habit won't get "leggy" during its flowering period. Drought-tolerant plant looks stunning planted near the edges of flower beds or in herb gardens. Rabbit and deer resistant.

*Nepeta faassenii* PP24788 🐾 🌸

## Lady's Mantle

For generations, a popular choice for the summer garden. Truly, no garden is complete without Lady's Mantle. The name alludes to the fanlike shape of this plant's light green foliage. A cottage garden classic, it produces masses of tiny, greenish-yellow blooms that erupt from fan-shaped foliage. Extremely drought tolerant and an excellent cover plant, it will thrive in sun or shade; a wonderful companion for roses. Long lasting as cut flowers, as well. *Alchemilla mollis*

### Dinnerplate Dahlia Mixture

*Hand-selected assortment of enormous, exotic flowers.* Blooms open in a range of vibrant colours to brighten gardens starting in midsummer and dim only when struck by fall's first frost. You don't need a green thumb for these garden-tested varieties to produce spectacular,

attention-grabbing blooms measuring 7-10" in diameter. Varieties are not individually labeled.

## Rocco Dahlia

*Vibrant flowers stun in borders and bouquets.* Imagine a joyful garden scene polka-dotted with round, 1½" blooms the colour of rich beetroot. This dream can be your reality with this free-flowering pompon dahlia that blossoms for months. Each bloom is packed with countless, inward-curving petals. Rocco makes a fantastic garden accent or cut flower. Like most dahlias, this variety performs best when its fresh flowers are picked and spent ones are pinched. 🌸

## COLOUR FROM SUMMER TO FALL

## Giant Ball Dahlia Mixture

*Our finest giant ball dahlias in contrasting colours.* Characteristic of these dahlias is how the petals tend to form in a beautiful, tight spiral and have tips that are blunt, rounded or indented. The 4½–5½" blooms they produce are not only some of the largest of this type but some of the most colourful, too. The varieties in this mix look beautiful together, whether planted as a group or as cut flowers in water. Life's a ball when these spherical wonders are blooming! Varieties are not individually labeled.

## Neo Dahlia

*Big, festive blooms set a merry tone.* Let Neo's huge, 8–9" flowers take your garden to the next level with their sunny yellow hues accented with bold red streaks. They are guaranteed to add vibrance to sun-splashed borders and mixed beds, where they mingle nicely with other summer-blooming perennials. Move the party indoors by creating a fresh floral arrangement or simple, single-variety bouquet. Makes a fine focal point planting, too. Pinch off spent blooms for bigger flowers.

## COLOUR FROM SUMMER TO FALL

### Kelvin Floodlight Dahlia

*The most spectacular yellow dahlia ever developed!* Its incredible golden-yellow, 7-9" fully double blooms seem nearly as intense as the sunshine they crave. This dinnerplate type brightens the back of any border or, as a cut flower, adds radiance to bouquets and arrangements. The enormous flowers open on sturdy stems that rarely need staking. Butterflies are drawn to Kelvin Floodlight, but deer tend to avoid it.

### Speech Dahlia

**NEW**

*Bold blooms make quite a scene.*

Speech Dahlia features fiery red petals accented by spiky white petals, all of which surround the large, fluffy, red centre. The 3½" blossoms add pizzazz to borders, cutting beds or feature gardens. Pollinators flocking to find a source of nourishment will find it within the petals of this showstopper. A hefty swath of this bold anemone type creates a sizzling midsummer display that won't soon be forgotten!

## COLOUR FROM SUMMER TO FALL

### Emory Paul Dahlia

*Yields enormous blooms up to 11" across!* Very few dahlias yield blooms as large as Emory Paul, whose gorgeous, fully double flowers are shaded fuchsia-pink to orchid-lavender. It is an excellent option for planting in large borders that receive lots of sunlight. The colourful, perfectly shaped blooms are also wonderful in bouquets and fresh-cut arrangements.

## COLOUR FROM SUMMER TO FALL

### Lilac Time Dahlia

*Provides unusual colouration to the late-season garden.*

Produces giant, unusually coloured flowers continually during summer and into fall, right up to the first frost! Fully double, 6–8" blooms are a stunning violet-purple and make a bold statement, whether growing outside in a sunny summer border or used indoors as part of a cut-flower display. Even a single, freshly cut stem can make a statement.

## Brilliant Miniature Hollyhock

Enjoy the charm of old-fashioned hollyhocks without the staking! Vibrant reddish-purple blooms make splashy accents in borders and in floral arrangements. Grows fast to give you plenty of glowing colour all summer. Good butterfly perch! *Sidalcea hybrida*
